

LWV Maintenance INSTRUCTIONS

INFINITY
— LUXURY WOVEN VINYL —

Follow all cleaning procedures using common detergents with a water only rinse in order to remove all residual cleaning agents (If Crystal Dry is used, a follow-up water rinse is not required). Allow the area to completely dry before allowing traffic.

Shoe Heel Marks

Use a medium bristle scrub brush and follow with mild detergent solution.

Blood - Chocolate - Ketchup - White Glue Egg - Ice Cream - Butter

Spray on a mild detergent solution and allow to dwell for 1 minute. Brush with medium bristle scrub brush then blot with white paper towels. Repeat until discoloration is removed.

Berries - Fruit Juices - Cream - Tea Soft Drinks - Milk - Wine - Beer - Coffee

Spray on a mild detergent solution and allow to dwell for 1 minute. Blot with white paper towels. Repeat until discoloration is removed.

Excrement - Vomit - Urine

Spray on a mild detergent solution and allow to dwell for 1 minute. Brush with a medium bristled scrub brush and then blot with white paper towels. Repeat until discoloration is removed.

Shoe Polish - Asphalt - Grease - Oil Ink - Lipstick - Crayon - Wax - Paint Rubber Cement - Seam Sealer

Remove as much residue as possible using a white towel without spreading the stain. Place mild solvent on a white towel and apply to the stained area. Repeat the application of the solvent and gently agitate the area as much as needed. Follow solvent cleaning with a detergent rinse. Over application of any solvent can dramatically affect the integrity of the fabric.

Mercurochrome - Merthiolate - Betadine, Tomato Sauce - Spaghetti Sauce

Spray a mild detergent solution on the spill and allow to dwell for 1 minute. Blot with white paper towels. If discoloration is not removed, dilute household bleach to 1:10 bleach to water and mist on affected area. Allow to dwell for 5 minutes. Rinse with water to remove all bleach residues.

Chewing Gum

Freeze with compressed air and break away from material surface. Follow with a mild detergent and a medium bristle brush.

Rust

Treat with a reducing agent and follow with a mild detergent rinse (might require professional assistance).

Stain Removal Procedure

Stains that cannot be removed under the listed procedures can be treated with a 1:10 bleach to water solution.

Mist the solution on the area of discoloration and allow to dwell for 5 minutes. Rinse the area with water only in order to remove the bleach residue. Allow to dry completely before allowing traffic on area.

Some stains may require a professional to complete the stain removal process.
